 - CRM development for logistics

- Project | Packtronics (Sweden, Norway)
- 500 modules installed
 - Branded automated parcel terminal designed and manufactured
 - The network was launched

A red Carrefour Click & Collect locker unit is shown. The unit consists of a grid of numbered compartments. The text 'Bien frais, tout prêt' is overlaid in large white letters. A small digital screen is visible on one of the compartments, displaying a photo of a family. To the left, a dark grey door with a 'Click & Collect' sign is partially visible.

Bien frais,

tout prêt

Project | Carrefour – click and collect concept (pilot project)
